

WHAT PEOPLE ARE SAYING ABOUT ASH

"Ash is a wonderfully talented dentist. I coach many dentists in the UK and know of only a handful that can create beautiful smiles in the way that he does. For many years I have seen first hand how he has changed his patients' lives with the new smiles created for them. Ash deserves special recognition as he has invested years of time and money to become the talented dentist that he is.

Of course all dentists can invest the same; but Ash has an amazing eye for detail, a wonderful personality and what's more, he really does care about your goals and concerns and what you wish to achieve. Ash is my dentist and he has provided me with a Smile Makeover on my front four teeth. My result is so natural that it is rare for a dentist to spot that I have porcelain veneers!

I chose a natural smile as I am fair skinned and didn't want a smile that would be too white. I also know that because of the skills Ash has, that these veneers are going to last me well into my late forties, if not fifties.

I would recommend Ash to you if you were thinking of improving your smile, whether this is to improve the appearance, or to replace missing teeth. He is great with nervous patients and provides a wonderful ambience for you during treatment. I have even witnessed patients telling him how much they have enjoyed their treatment - that is the truth!"
