

Our 8-step Hygiene & Fresh Breath Treatment Session using GBT

- 01 EVALUATE:** Detailed assessment to create a personalised treatment plan for you
- 02 DISCLOSE:** Make the Biofilm visible
- 03 MOTIVATE:** Educate and motivate you for perfect home care – the most important step for a lifetime strategy of dental health
- 04 AIRFLOW CLEANING:** Removal of Biofilm, stains and soft tartar using a jet of air, warm water and the best cleaning powder on the market
- 05 PERIOFLOW CLEANING:** Removal of Biofilm beneath the gums, i.e. “deep cleaning” - gentle and thorough
- 06 PIEZON NO PAIN CLEANING:** Removal of tartar comfortably
- 07 QUALITY CONTROL:** Ensuring all the harmful Biofilm and tartar has been removed. The clean and smooth teeth are then checked for DECAY
- 08 RECALL:** Advising you on how often to have a GBT professional cleaning session (2-4 times a year for most individuals)
